Senior EPC, operations, and techno-commercial sales leader with 27+ years of experience across infrastructure, utilities, water, wastewater, and industrial projects. Currently serving as Assistant Vice President - Sales & Marketing at Hydroflux Engineering Pvt. Ltd., leading client relationships, business development, proposal and BOQ finalization, negotiation support, and WTP/STP/ETP/ZLD solution selling backed by end-to-end EPC delivery expertise.

EXPERIENCE

HYDROFLUX ENGINEERING PVT. LTD. | ASSISTANT VICE PRESIDENT - SALES & MARKETING

Feb 2024 - Present | Delhi

- Led techno-commercial sales for WTP, STP, ETP, and ZLD solutions, translating client requirements into technically aligned, commercially viable offerings.
- Strengthened client relationships and business development through consultative meetings, site surveys, requirements discovery, and solution presentations.
- Reviewed proposals and coordinated BOQ, scope, and specification finalization with engineering, estimation, and delivery teams.
- Supported offer negotiations and order finalization by resolving technical-commercial clarifications and aligning scope and commercial terms.

EARTH WATER LTD. | VICE PRESIDENT - PROJECTS OPERATION

May 2008 - Jan 2024 | India

- Lead turnkey EPC delivery across civil, mechanical, electrical, and instrumentation scopes, from design validation and site execution through commissioning, client handover, and operations closure.
- Direct multidisciplinary teams, consultants, vendors, client representatives, and local authorities to align approvals, execution, measurements, billing, and handover milestones.
- Deliver STPs, ETPs, WTPs, RO/DM plants, pumping stations, drainage networks, industrial utilities, and public infrastructure across multi-location environments.
- Strengthen project controls through scheduling, resource planning, milestone reviews, QA/QC, HSE compliance, MIS reporting, vendor follow-up, and stakeholder communication.
- Apply CPWD, MES, and PSU process knowledge to tender compliance, RA billing, BOQ validation, budgeting, and commercial documentation while improving turnaround, cost control, and delivery discipline.

ION EXCHANGE (INDIA) LTD. | PROJECT MANAGER

1997 - Apr 2008 | India

- Progressed from senior site engineering assignments into project management, directing water and wastewater facilities for automotive, power, sugar, industrial, and institutional clients.
 - Executed civil, structural, MEP, and utility works while coordinating clients, consultants, contractors, vendors, and QA/QC inspectors against milestone plans.
 - Managed parallel facilities while maintaining design and regulatory compliance, safety discipline, QA/QC records, and commissioning readiness.
 - Controlled BOQs, RA billing, measurements, progress reports, site logs, vendor coordination, and handover support, contributing to early completion with a zero-safety-incident focus.
-

PROJECTS

NPCIL, KUDANKULAM | 2 MLD STP

Kudankulam

- Executed civil infrastructure, drainage, testing, commissioning, and documentation under rigorous site governance, safety, QA/QC, and stakeholder controls.

NTPC LIMITED, KORADI PLANT | STP AND PROCESS WATER SYSTEMS

Koradi

- Directed utility piping, vendor delivery, site measurements, testing, commissioning, approvals, and handover within an operating power plant.

LARSEN & TOUBRO | STP PROJECTS

Gandhinagar and Chandigarh

- Led multidisciplinary execution across civil, mechanical, electrical, QA/QC, vendor, billing, commissioning, and handover interfaces at two locations.

GIFT CITY | 100 M3/HR RO AND DISTRIBUTION SYSTEM

Gandhinagar

- Delivered the RO plant and integrated water distribution network, coordinating installation sequencing, pipelines, electrical and instrumentation interfaces, commissioning, and handover.

NMDC LIMITED | TWO 4 MLD SBR-BASED STPS

Kirandul and Ballari

- Oversaw civil, mechanical, electrical, instrumentation, drainage, power-transmission interfaces, quality, safety, commissioning, and handover.

MPPGCL, SARNI | 5 MLD STP

Sarni

- Delivered the STP, approximately 16 km drainage network, power-transmission line, and treated-water reuse system, including billing and client inspections.

LANCO INFRATECH LIMITED | EFFLUENT TREATMENT PLANT

Koradi, Nagpur

- Controlled planning, procurement follow-up, pipeline execution, measurements, quality, budgeting, progress reporting, and commissioning for an approximately INR 11 crore assignment.

MILITARY ENGINEERING SERVICES | MULTIPLE STP PROJECTS

Pan India

- Managed STPs, sewer networks, plumbing, piping, electrical transmission, and civil infrastructure with disciplined resourcing, contracting, HSE, QA/QC, billing, and staged handovers.

JINDAL STEEL & POWER LIMITED | SEWAGE TREATMENT PLANT

Angul

- Led STP and associated civil-infrastructure execution, coordinating teams, contractors, vendor deliveries, inspections, safety, reporting, and client handover.

BWSSB / KLCDA | 4 MLD SBR-BASED STP

Bangalore

- Delivered civil, mechanical, electrical, testing, and commissioning scopes through milestone reviews, QA/QC documentation, HSE discipline, measurement tracking, and client coordination.

JIPMER | 4 MLD STP

Puducherry

- Led STP, civil works, and drainage delivery for a major institutional campus, coordinating client engineers, consultants, contractors, quality teams, and commissioning agencies.

PONNI LOYD, ANUPPUR POWER PROJECT | EFFLUENT TREATMENT PLANT

Anuppur

- Managed layout validation, varied-diameter pipeline networks, vendor supplies, erection, quality inspections, testing, commissioning, and progress reporting.

WALCHANDNAGAR INDUSTRIES, HBL PLANT | PROCESS WATER TREATMENT PLANT

Motihari, Bihar

- Executed boiler-feed treatment using HRCC, RO, and DM mixed-bed stages, covering equipment, piping, tie-ins, trials, performance validation, and commissioning records.

AJMER DEVELOPMENT AUTHORITY | THREE STP PROJECTS

Pushkar and Ajmer

- Managed a 5 MLD facility at Pushkar and two Ajmer STPs with pumping stations and drainage networks, including municipal interfaces, measurements, approvals, billing, and commissioning.

HUDA, AMBALA | 2.5 MLD STP

Ambala

- Delivered the STP, drainage network, and civil works through coordinated execution, QA/QC inspections, safety compliance, measurements, commissioning, and final handover.

SKILLS

EPC and Project Delivery: Turnkey EPC Project Management, Project Scheduling, Site Execution, Concept to Commissioning, Handover, Multi-Site Operations

Sales and Techno-Commercial: Client Relationship Management, Business Development Support, Techno-Commercial Sales, Proposal Review, BOQ and Scope Finalization, Site Surveys, Client Meetings, Offer Negotiation Support, Order Finalization, WTP/STP/ETP/ZLD Solution Selling

Water and Infrastructure: STP, ETP, WTP, RO/DM Plants, Pumping Stations, Drainage Networks, Industrial Utilities, Public Infrastructure

Engineering Coordination: Civil, Structural, Mechanical, Electrical, Instrumentation, MEP Integration, Utility Piping

Commercial and Governance: Government Tendering, RA Billing, BOQ Validation, CPWD/MES/PSU Norms, Budget Control, MIS, DPRs, Site Logs, Measurement Documentation

Leadership and Controls: Team Leadership, Vendor and Contract Management, Stakeholder Engagement, Client Relations, Risk Mitigation, HSE Compliance, QA/QC Assurance

ACHIEVEMENTS

- Led execution of 50+ infrastructure projects across India with strong on-time-delivery discipline.
 - Received Best Operations Head recognition at Earth Water Ltd. in 2011.
 - Received Best Employee of the Year recognition in 2012 and 2013.
 - Recognized for turning around delayed projects through leadership, risk mitigation, cost control, and a zero-safety-incident execution focus.
-

EDUCATION

PUNE TECHNICAL BOARD | DIPLOMA IN CHEMICAL ENGINEERING

1992 | Pune
