

Aniket Singh

+91 8178207040 | hianiket2003here@gmail.com | github | linkedin

Final-year B.Tech Information Technology student interested in building a career in IT infrastructure, operating systems, networking, and technical support. Eager to learn in a structured engineering environment, support lab and setup activities, and grow through hands-on exposure to Windows, Linux, virtualization, and troubleshooting.

EXPERIENCE

AIRPORTS AUTHORITY OF INDIA | IT INTERN

May 2025 - July 2025 | Delhi (On-Site)

- Observed enterprise IT infrastructure operations and supported basic documentation for technical processes.
- Assisted with simple coordination activities, system-related checks, and follow-ups under guidance from senior team members.
- Gained exposure to workplace IT support practices, operating system environments, and network-dependent systems.

MARKSMAN TECHNOLOGIES PVT. LTD. | AI AND AUTOMATION INTERN

May 2025 - July 2025 | Online

- Worked on a guided automation project while improving familiarity with software setup, testing, and troubleshooting workflows.
 - Coordinated progress updates, documented observations, and incorporated feedback during development and review cycles.
 - Strengthened comfort with technical learning, remote collaboration, and structured task completion.
-

PROJECTS

HEALTH GUARDIAN HEALTHCARE PLATFORM | FULL STACK DEVELOPER

PYTHON | MACHINE LEARNING | HTML | CSS

- Built a web-based healthcare platform while gaining practical exposure to application setup, testing, and issue resolution.
- Worked with multiple components and documented setup observations to keep the project easier to run and review.

INVENTORY MANAGEMENT SYSTEM | DEVELOPER

PHP | APACHE | SQL

- Developed a database-backed system using a local server environment, strengthening understanding of application hosting and configuration basics.
- Handled basic testing, data flow checks, and troubleshooting during development to improve system reliability.

DIGITALIZATION OF CULTURAL HERITAGE | AI DEVELOPER

DEEP LEARNING | ESRGAN

- Worked on an AI-based restoration project that required careful environment setup, model execution, and result validation.
- Maintained project notes and reviewed outputs to support iterative improvement and clearer technical communication.

SKILLS

Operating Systems: Windows, Linux, OS installation basics, system configuration basics, maintenance, beginner-level troubleshooting

Networking: TCP/IP fundamentals, networking basics, connectivity troubleshooting, network configuration awareness

Virtualization: Virtual machine basics, VMware concepts, test environment setup, beginner-level VM deployment understanding

Tools & Productivity: MS Office, Windows tools, Linux terminal basics, Git basics, documentation, task tracking

Professional Skills: Communication, collaboration, willingness to learn, SOP following, coordination, issue documentation, escalation support

CERTIFICATIONS

ORACLE CLOUD INFRASTRUCTURE 2025 CERTIFIED JAVA FOUNDATIONS ASSOCIATE

CISCO NETWORKING ACADEMY: PYTHON ESSENTIALS

CISCO NETWORKING ACADEMY: CYBERSECURITY ESSENTIALS

NVIDIA: FUNDAMENTALS OF DEEP LEARNING

EDUCATION

AMITY UNIVERSITY, NOIDA | BACHELOR OF TECHNOLOGY IN INFORMATION TECHNOLOGY

2022 - Present | Noida

CGPA: 7.4/10

ROCKWOOD SENIOR SECONDARY SCHOOL, NOIDA | GRADE XII, CBSE

2021 - 2022 | Noida

Percentage: 63

ROCKWOOD SENIOR SECONDARY SCHOOL, NOIDA | GRADE X, CBSE

2019 - 2020 | Noida

Percentage: 69
