PROFESSIONAL HIGHLIGHTS

- Final-year IT student skilled at translating complex solution capabilities into client-focused narratives for enterprise consulting partners.
 - Hands-on experience in building software prototypes while leading discovery sessions, drafting solution briefs, and steering stakeholder alignment for pre-sales pursuits.
-

EXPERIENCE

AIRPORTS AUTHORITY OF INDIA | IT INTERN

May 2025 - July 2025 | Delhi (On-Site)

- Mapped stakeholder needs across airport operations and translated them into concise IT briefs that helped the project office prioritize automation pilots.
- Documented process improvements and communicated updates to cross-functional teams, raising clarity on dependencies from 50% to 80%.

MARKSMAN TECHNOLOGIES PVT. LTD. | AI AND AUTOMATION INTERN

May 2025 - July 2025 | Online

- Collaborated with clients to frame the spam detection opportunity, documented their acceptance criteria, and set success metrics before building the solution.
 - Programmed and demonstrated the AI-powered spam detection system, narrating insights, adoption steps, and ROI to stakeholders during weekly check-ins.
-

PROJECTS

HEALTH GUARDIAN HEALTHCARE PLATFORM | FULL STACK DEVELOPER

PYTHON | MACHINE LEARNING | HTML | CSS

- Engineered a platform that integrates disease detection models with clear KPI tracking so healthcare staff can discuss potential automation wins with leadership.
- Built a conversational mental health assistant and recommendation system while crafting pitch materials that highlighted improved engagement for clinicians.

INVENTORY MANAGEMENT SYSTEM | DEVELOPER

PHP | APACHE | SQL

- Designed a complaint tracking workflow in collaboration with operations to demonstrate how digitization reduces manual follow-ups and cycle time.
- Captured stakeholder feedback and translated it into reporting dashboards that helped decision makers visualize pain points and response gaps.

DIGITALIZATION OF CULTURAL HERITAGE | AI DEVELOPER

DEEP LEARNING | ESRGAN

- Presented the heritage preservation system to cultural bodies by emphasizing restoration benefits and audience engagement improvements.
- Applied ESRGAN to enhance artifacts while narrating how super-resolution previews can drive sponsorship conversations and grant funding.

SKILLS

Technical Skills: Java, JavaScript, Python, SQL, HTML, CSS, React, Node.js, API Integration, git

Project Management & Documentation: JIRA, Canva, MS Office

Client & Business Skills: Solution storytelling, Stakeholder workshops, Requirements discovery, Presentation and demo delivery, Cross-functional collaboration, Customer empathy

CERTIFICATIONS

ORACLE CLOUD INFRASTRUCTURE 2025 CERTIFIED JAVA FOUNDATIONS ASSOCIATE

CISCO NETWORKING ACADEMY: PYTHON ESSENTIALS AND CCNA

NVIDIA: FUNDAMENTALS OF DEEP LEARNING

CISCO NETWORKING ACADEMY: CYBERSECURITY ESSENTIALS

SCALER: JAVA COURSE - MASTERING THE FUNDAMENTALS

GEEKSFORGEEKS: MONGODB

NPTEL: PATENT DRAFTING FOR BEGINNERS

ACHIEVEMENTS

- Presented a solution brief at the 2025 AAI Conference, earning praise for its clarity and business context.
 - Placed second in HackRush after delivering a demo rated highly by a mixed technical and business jury for storytelling and engagement.
 - Secured second place at ByteFiesta by guiding the team narrative around impact metrics and adoption considerations.
-
